Title: Regarding cleaning of surrounding areas of railway tracks in Chennai.

SHRI S.R. VIJAYA KUMAR (CHENNAI CENTRAL): Madam Speaker, I would like to bring to the kind attention of the Government that the areas surrounding all the railway tracks are not cleanly maintained in Chennai city. A lot of plastic covers, plastic cups, paper cups and waste materials thrown by the passengers remain there for a long time. If the Southern Railway spends a meager amount, these areas can be cleaned regularly on a daily basis and kept clean. Sanitary workers may be deployed by the Southern Railway or this job can be outsourced by earmarking certain length to each worker. The Southern Railway can also take the support of the Municipal Corporation of Chennai for this purpose.

I also bring to the kind attention of the Government that the elevated MRTS tracks and all stations are not maintained properly. This spoils the image of our Chennai city. I request the Government to take necessary action immediately. This is applicable not only to Chennai city but also to all other cities and towns of Tamil Nadu and other States.
