Title: Need to set up two benches of Mumbai Railway Claim Tribunal.

DR. KIRIT SOMAIYA (MUMBAI NORTH EAST): Railways have single bench in most of the areas in the country. At couple of places, Railways have two benches. Mumbai region has the largest number of daily passengers including casualties in India. The CAG Report No. 14 of 2016 on Sub-urban train services in Indian Railways and 69th Report of Public Accounts Committee report has also highlighted this issue and recommended solution/appropriate action. Mumbai's backlog also ranges from 8000 to 10000 cases. The backlog is increasing on daily basis. There is a long standing demand to have two benches at Mumbai. Against this background, I request Hon'ble M/o Railways to have two benches at Mumbai Railway Claim Tribunal.
