Title: Condition of road along Indo-Bangladesh border in Meghalaya.

SHRI VINCENT H. PALA (SHILLONG): The condition of roads along the border of India and Bangladesh in Meghalaya is in a very bad condition. The Government needs to have a special fund to build these roads as well as provide electricity on these roads. The area is being neglected inspite of the fact that the people help in protecting the border. Therefore, we need to have good road and other facilities along the border. we need mobile tower, lighting, water connection along the roads as soon as possible. I, therefore, request the Government to provide the above said facilities.
