Title: Need to expedite construction work of Indian Institute of Management at Amritsar, Punjab.

***SHRI GURJEET SINGH AUJLA (AMRITSAR):** Respected Speaker Madam, I want to draw your attention towards the delay in completion of Centre-Sponsored projects.

Madam, six Indian Institute of Managements had been granted and one was in my parliamentary constituency of Punjab. It was granted in 2014 and foundation-stone was laid on 19th June, 2015. However, no work has been done here. Other five institutes have started functioning, but the institute at Amritsar is a casualty. This institute is functioning from a rented building and no Director has been appointed here. I want an answer from the Government. How much time will the Government take to complete this project?

Madam, an Information Technology Park had been provided to Punjab in 2012. However, it is yet to see the light of the day. I want that this Information Technology Park should be set up in Amritsar. Madam, a 300 metre high FM tower was to be built in Amritsar in 2005.

HON. SPEAKER: Please conclude.

SHRI GURJEET SINGH AUJLA : Madam, this is very important. It was completed. But, the Central Government now wants to lower the height of this tower. It is not in our interest. The height of the tower should not be decreased. Madam, due to the imposition of GST, textile and hardware traders are facing much difficulty.

HON. SPEAKER: You can raise only one demand at a time. This is not allowed. ਜੀਥੇ ਆਕਰ ਮੈਂ ਏਕ ਵਿਖਾਂ ਪਰ ਹੀ ਵੋਲਨਾ ਹੈ।
