**Title: Need to declare the class XII CBSE result of compartmental examination in mathematics as Generally Passed for the candidates who appeared at the said Examination.**

**SHRI BALBHADRA MAJHI (NABARANGPUR):** During the Board Examination of 2015 for Class-XII through CBSE it was reported that the question of Mathematics (optional) was very tough. The matter was also raised in the house by some of the MPS. In spite of assurance given by the HRD Minister, a number of students with Mathematics (Optional) as subject, failed. Some of the students have qualified through entrance examination for Engineering and Medical courses, but are not able to take admission due to delay in result of Compartmental Examination which will take some more time.

Parents and students have requested the institutes to wait for the compartmental result to be out.

Irrespective of anything, some of the bright students, who otherwise scored high in all subjects, will carry the stigma of 'Compartmentally Passed'.

It is therefore requested that, as an exception, students having compartment in Mathematics (Optional) be treated as "Generally Passed".
