Title : The Speaker made reference about naming the icy mountainous region discovered on Pluto as 'Norgay Montes' in honour of the legendary mountaineer Tenzing Norgay Sherpa.

HON. SPEAKER: Hon. Members, recently, the National Aeronautics and Space Administration (NASA) have announced that they were naming the icy mountainous region discovered on Pluto as 'Norgay Montes' in honour of Tenzing Norgay Sherpa, one of the first two persons to scale Mount Everest along with Sir Edmund Hillary on 29<sup>th</sup> May 1953.

I am sure the House joins me in expressing its immense pleasure and pride over this landmark acknowledgement of the legendary mountaineer and his spectacular feat.
