Title: Need to extend relief measures to the people affected by heavy rains in different parts of Karnataka.

SHRI SURESH C. ANGADI (BELGAUM): Since the last few days there are heavy rains in the State of Karnataka and because of this most of the standing crops and the crops which have already been harvested, livestocks have been damaged and most of the farmers are in distress. The Government of Karnataka is not helping the farmers. I would like to request that the Centre should intervene in the matter immediately and come to the rescue of the farmers in my area. They are facing a huge problem because of the rains. I would like to request the Central Government to make an assessment regarding the damages caused due to rain in my constituency in Karnataka. I would like to make this request, through you, to the State Government and the Central Government. Thank you.
