Title: Regarding the problem of wild boar menace in Chamarajanagar Constituency in Karnataka.

SHRI R. DHIRUVANARAYANA (CHAMARAJANAGAR): Sir, I thank you for giving me this opportunity to speak.

I would like to draw the attention of the House to wild boar menace in my Constituency as well as in my State also. In my Constituency, Chamarajanagar, Karnataka, 51 per cent of total geographical area is full of forest. It is having two tiger projects and four national wild life parks. The wild boar population is severe over there. They enter the crop fields and destroy crops of the farmers. They even attack human life.

My humble request to the Union Government would be to eliminate the name of wild boar from the list of wild animals so that wild boars can be eradicated.

Secondly, the basis of giving crop compensation to farmers is not scientific. Therefore, I would request the Union Government to give crop compensation on scientific basis.
