Title: Need to construct a subway at Vridhachalam Town Railway station.

SHRI A. ARUNMOZHITHEVAN (CUDDALORE): Hon. Deputy Speaker, Sir, a rail over bridge was constructed at the railway gate near Vridhachalam Town Railway Station. When the railway gate was there, farmers and people of the villages on either side were able to access both sides of the gate. Because of this overbridge, farmers were not able to move to the other side. They find it difficult to move their farming equipments, cattle, agriculture produce, etc. to the other side. At present, it takes them a long time to reach the other side by crossing the rail overbridge. Villagers on both sides of this overbridge have been demanding construction of a subway at Vridhachalam Town Railway Station at Manalur.

Therefore, I urge upon the hon. Railway Minister to direct the Southern Railway authorities to construct a subway at Vridhachalam Town Railway Station at the earliest.
