Title: Need to expedite the opening of passenger reservation centre at Chennai Beach station.

SHRI S.R. VIJAYA KUMAR (CHENNAI CENTRAL): Thank you hon. Deputy Speaker, Sir. The Railways have constructed a computerized passenger reservation centre at Chennai Beach Station. However, what the building lacked was a protective compound wall around it. As it was possible for everyone entering the reservation centre to walk across the suburban railway lines, constructing a compound wall was mandatory, but it was never done. Since there was no compound wall, the building continues to remain locked. Keeping the building locked has put the commuters at difficulty in getting the ticket booked.

Considering the importance of the computerized passenger reservation centre for rail commuters, I urge upon the hon. Minister to expedite the opening of passenger reservation centre at the earliest so that the railway commuters are not put to difficulty.
