Title: Need to construct a foot over bridge or an underpass at Women Arts and Science College in Anginayanapalli Village at NH 46 in Krishnagiri Parliamentary Constituency.

SHRI K. ASHOK KUMAR (KRISHNAGIRI): Sir, in my constituency, Krishnagiri, there is a government Women Arts and Science College in Anginayanapalli village at NH 46. There are about 1,200 girl students studying in this college. These students are coming from Bargur and Krishnagiri which are five kilometres and 25 kilometres away respectively.

The girl students have to cross the national highway for getting bus to go to their destinations from both the sides during college days. About 1,000 vehicles are moving on both sides of the roads. The students meet with accidents, sometimes by the speeding vehicles. Since there is a dangerous curve in front of the college, the speeding vehicles are not visible when they cross the highway. There must be constructed a foot over bridge or an underpass which is required over there. It is also essential to construct a bus bay with shelter on both sides of the road.

Sir, I would urge upon, through you, the hon. Minister of Highways to take necessary steps. Thank you

HON. CHAIRPERSON:

Shri Sharad Tripathi and

Kunwar Pushpendra Singh Chandel are permitted to associate with the issue raised by Shri K. Ashok Kumar.
