Title Need to set up a Cancer Research Institute/Hospital at Rajahmundry, Andhra Pradesh.

SHRI M. MURLI MOHAN (RAJAHMUNDY): I am constrained to bring to the kind notice of the Union Government that the incidence of various types of cancer is very much prevalent in all the coastal districts of Andhra Pradesh, particularly in East and West Godavari districts including Rajahmundry, Amalapuram, Kakinada, Eluru, etc. However, the existing Government General Hospital, Rajahmundry is not having adequate facilities to deal with cancer related cases.

Keeping in view of the position stated above, I would, earnestly, request the Government to set up a Cancer research Institute/Cancer Hospital at Rajahmundry by upgrading the existing Government hospital as multi Super Specialty Hospital.
