Title: Need to promote organic-farming in Arambagh Parliamentary Constituency in West Bengal.

SHRIMATI APARUPA PODDAR (ARAMBAG): My Arambagh Constituency is a rich agricultural area. The agricultural economy largely depends on potato, Jute, Vegetables and Orchards products. It is very essential to create awareness among the people about organic farming on large scale.

I urge the Government for training and development of entrepreneurship and creation of employment opportunities based on organic farming in my constituency for the social-economic change.
