Title: Need to extend railway line from Junagarh to Ampani in Odisha.

SHRI ARKA KESHARI DEO (KALAHANDI): Expansion of railway line is considered as one of the parameters of economic development. Kalahandi my Parliamentary Constituency is located in the western Odisha region in the State of Odisha. My district is comparatively less developed than the coastal districts of the State. The extension of railway line from Junagarh to Ampani may be taken up during the current financial year by the Government in order to increase railway network as well as transportation of goods and services and easy movement of people of my district.
