Title: Need to reduce GST rate on effluent treatment machineries.

*SHRIMATI V. SATHYABAMA (TIRUPPUR): Hon. Madam Speaker, Vanakkam. An environment friendly Zero Liquid Discharge method is being used by 300 dyeing Units and 18 Common Effluent Treatment Plants situated in Tiruppur District of Tamil Nadu. Around 9 Crore litres of Water allocated to these dyeing Units, thus saved, is also provided for the additional use of common public every day. I request that the GST on Common Effluent Treatment Plants should be brought down from 12 per cent to 5 per cent. Moreover, I request that GST on Waste Water Treatment Equipments used in these Common Effluent Treatment Plants should also be brought down from 18 per cent to 5 per cent. I request the Union Government to take immediate action in this regard. Thank you.
