Title: Regarding Land Custom Station at Dawki in Meghalaya.

SHRI VINCENT H. PALA (SHILLONG): Thank you, Madam, for allowing me to speak. As you know, Northeast is a landlock area. To boost the economic condition of the Northeast we need to open lots of land custom stations between India and Bangladesh. Dawki is one of the stations where the Integrated Check Post has been constructed but it takes a lot of time....(*Interruptions*)

I would urge upon the Government to make the land custom station at Dawki functional as soon as possible and open new land custom stations at Kuliang and Maheskola, so that the economy of the Northeast, in particular that of Meghalaya, will get a boost.
