Re MOTIONS FOR ADJOURNMENT

Mr. Speaker: I have received notices of several adjournment motions. There is one thing that I want to make clear and I require the approval of the House in that. I desire that a convention might be established henceforward that no adjournment motion might be moved today when we hear the Address of the President. I will consider these adjournment motions tomorrow and take them up. They would not suffer on account of any delay or notice having not been given at the earliest opportunity. I will waive that. We will take them up tomorrow, because, ordinarily, we only transact formal business today, laying of papers and

others and do not enter into any controversial matters. We attach importance to the Address by the President. I think Members would agree to that.

Hon. Members: Yes.

Shri Tridib Kumar Chaudhuri (Berhampur): May I point out one thing, while I bow down to your decision in laying down this convention? I am one of those who have tabled adjournment motions today. It was done in pursuance of a previous convention. Last time, I think it was in 1957, over some issue—I forget the issue—the Speaker allowed an adjournment motion being moved that day. So, there was no intention on our part to disturb the convention.

Mr. Speaker: That is exactly because it was said that it was allowed on some previous occasion that I wanted the approval of the House and I got that.
