

देवलासी, महाराष्ट्र में बाटिलरी द्वारा चांदमारी के सम्प्राप्त के लिये भूमि प्राप्त किया जाना

1125. श्री महानू लिकुवा कोम : क्या अब प्रधान मंत्री तथा रक्षा मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार महाराष्ट्र में देवलासी में बाटिलरी द्वारा चांदमारी के सम्प्राप्त के लिए केंद्र स्थापित करेगी;

(ख) यदि हां, तो इस प्रयोजन के लिए कितनी भूमि प्राप्त की जा रही है और इसके परिणामस्वरूप कितने गांव खाली कराये जा रहे हैं और कितने लोगों को हटाया जा रहा है; और

(ग) यदि हां, तो सरकार उनको बसाने के लिए क्या कार्यवाही कर रही है?

उप प्रधान मंत्री तथा रक्षा मंत्री (श्री कमलेश्वर राव) : (क) देवलासी में स्वार्ड तीर पर अधिग्रहीत चांदमारी जेब पहले से ही मौजूद है। इस चांदमारी जेब को बढ़ाने के लिए अतिरिक्त भूमि प्राप्त की जा रही है ताकि उसमें तुरी तक मार कर सकने वाले आधुनिक हथियारों का सम्प्राप्त किया जा सके।

(ख) अब 30922 एकड़ भूमि और अधिग्रहीत की जा रही है। इसके परिणामस्वरूप 18 गांवों के 9104 व्यक्तियों को बसाना होगा।

(ग) अधिग्रहीत की जा रही भूमि और अन्य परिस्थितियों के लिए सरकार मुआवजा देती है। विस्थापित व्यक्तियों को इस मुआवजे से बसाने से संबंधित अगली कार्यवाही पर महाराष्ट्र राज्य सरकार द्वारा अधिक अच्छी तरह विचार किया जा सकता है।

Latest Technology for production of Penicillin and Streptomycin

*1126. SHRI S. R. DAMANI: Will the Minister of PETROLEUM, CHEMICALS AND FERTILIZERS be pleased to state:

(a) whether it is a fact that the Hindustan Antibiotics Ltd., has not been keeping abreast of the latest technology available in India and abroad in the production of Penicillin and Streptomycin, the two important life-saving drugs;

(b) if so, the reasons thereof; and

(c) whether Government propose to appoint a committee to enquire into the facts and fix the responsibility?

THE MINISTER OF PETROLEUM, CHEMICALS AND FERTILIZERS (SHRI H. N. BAHUGUNA)

(a) In the recent past, Hindustan Antibiotics Ltd., have been keeping themselves abreast of the latest developments in this field and presently possess strain/technology for the manufacture of Penicillin and Streptomycin which would compare favourably with international standards.

(b) and (c). Do not arise.

Vacancies of Announcers of certain languages in Simla Station of A.I.R.

*1127. SHRI GANGA SINGH: Will the Minister of INFORMATION AND BROADCASTING be pleased to state:

(a) whether it is a fact that there are no Announcers in the Simla Station of A.I.R. of the following important dialects of Himachal Pradesh:—

(i) Mandiyali

(ii) Lahuli

(iii) Pangwali;

(b) if so, since when these posts are vacant; and

(c) when are they likely to be filled?

THE MINISTER OF INFORMATION AND BROADCASTING (SHRI L.K. ADVANI): (a) to (c). Originally, before the implementation of the norms prescribed by the SIU, posts of Announcers (Comperes) were sanctioned for each of the dialects. However, AIR, Simla could not get suitable persons for Mandiyali & Pangwali dialects and these posts have not been filled since the date of their creation on 22.8.1970. The post of Lahuli dialect where a Compere was working become vacant after his resignation from 20-7-1972.

Thus, there are at present no regular Announcers (Comperes) in the Simla Station of All India Radio in the Mandiyali. Lahuli and Pang-wah dialects.

The norms prescribed by the staff Inspection Unit of the Ministry of Finance entitled an AIR Station one Announcer (Compare) for a minimum of 15 hours of programmes per month in a language/dialect. In accordance with these norms, Simla Station of All India Radio is not entitled now to regular Announcers for Mandiyali, Lahuli and Pang-wah dialects. The question of filling these posto does, not therefore, arise.

Production of Oil

*1128. SHRI BEDABRATA BARUA: Will the Minister of PETROLEUM, CHEMICALS AND FERTILIZERS be pleased to state:

(a) what was the total quantity of oil produced last year off-shore;

(b) what is the likely oil production in the next three years;

(c) whether there has been any authoritative estimate of the reserve of oil in Bombay High; and

(d) whether it is a fact that different estimates have been made by different agencies and if so, what are those different estimates?

THE MINISTER OF PETROLEUM, CHEMICALS AND FERTILIZERS (SHRI H. N. BAHUGUNA): (a) A total of 3,3105 million tonnes of oil was produced from Bombay High during 1976-79.

(b) Keeping in view various factors, the crude oil production programme of Bombay High was revised last year. The revised programme envis-

ages production during the next 4 years as under:—

Year	Crude oil (Million tonnes)
1979-80	4.40
1980-81	5.90
1981-82	8.20
1982-83	9.00

(c) The estimates of oil reserves in place in Bombay High have been made by ONGC as well as M/s. CFP of France. M/s. Degolyer & McNaughton have also made estimates for part of the field.

(d) All these estimates, which vary, have been considered by the Reserve Estimate Committee of ONGC to arrive at the likely figure of oil reserves. It would not be in the public interest to disclose the figures of different estimates made by various agencies. However, ONGC's balance recoverable reserves of crude oil as on 1.1.1978 are provisionally estimated at 312.53 million tonnes, out of which 91.49 million tonnes are in the onshore areas and the balance in the offshore areas.

Utilising the waters of Tista River for Power Generation

*1129. SHRI VIJAY KUMAR N. PATIL: Will the Minister of ENERGY be pleased to state:

(a) whether a preliminary survey has been conducted by Government to know the potential of electricity that can be generated by utilising the flow of the water of the Tista River;

(b) if so, the total quantity of electricity that can be generated;

(c) how much of it will be utilised in Sikkim and how much can be spared for West Bengal; and

(d) what is the portion of this potential demanded by Bangla Desh?
